

Lottery Benchmarking Report 2016/2017 edition

London/Munich, November 2016

Go to www.lottery-benchmarking.mecn.net to obtain the full report

Summary

To compete successfully in the global marketplace, lotteries want to know as much as possible about benchmarking and success factors, as WLA benchmarking seminars and several regional initiatives have repeatedly shown. MECN is therefore proud to present the 2016/2017 edition of our “Lottery Benchmarking Report”.

The 2016/2017 edition again includes a large number of analyses of the Internet/digital segments. Since social media and networks, such as Facebook, and social gam(bl)ing are becoming more and more important, we again include analyses of activities and successes of lotteries in social media.

Content of report

The updated study includes:

- **Sales-related benchmarks** – Total sales and product-related sales (e.g., lotto, betting, instant, ...) benchmarks, such as per-capita sales analyses.
- **Sales channel benchmarks**, such as number of residents and sales per outlet, ...
- **Internet/digital segments and channels** – We offer many analyses of the Internet/digital/mobile segments and channels, including breakdown by product (Internet lotto, betting), users, We have also included comparisons to private Internet gambling companies.
- **Social media and networks benchmarking and success stories** – In-depth analyses of the social media activities (Facebook, Twitter, YouTube) of lotteries.
- **Marketing benchmarks**, such as marketing/advertising expenses in % of total sales.
- **Operating expense benchmarks**, such as operating expenses in % of sales broken down into human resources (e.g., average personnel expenses, sales per employee), IT and communications, and other benchmarks.
- **Large number of lotteries analysed and most up-to-date information** – Analyses of data from ca. 130 state/public lotteries and operators for the years 2014 and 2015 as well as long-term trend analyses.

In total, the report has **61 pages and 56 graphs/exhibits**.
